PERSONAL PROJECTS

Association rules (11/2018 – 11/2018)

- Study inga huge DataBase about 10000 record and finding the Strong Association Rules Using Apriori Algorithm with JAVA

Data Clustering (12/2018 – 12/2018)

- Studying a huge DataBase Records and Constructing the Clustering Algorithm Using (K-means) with JAVA

Data Classifications (12/2018 – 12/2108)

- Studying a huge DataBase Records and then divide data into Training set and Testing set and then Applying Bayesian Classifier and K-nearest Algorithm to construct the Classification using JAVA

RESTFUL API (03/2018 – 03/2018)

- Simple Java Project using A Fixer API And show to user the exchange of the Currencies

Selenium Testing (05/2018 – 05/2018)

- about testing an web site forms and labels ...

Android-Retrofit (12/2018 – 12/2018)

- Android Accessing API using Retrofit

SKILLS

Teamwork

Social Communication

self Study

LANGUAGES

English

Arabic

EDUCATION

Computer Science

Faculty of Computers and information Cairo University

09/2105 – Present

Major : information Systems (IS)

Courses

- Software Engineering
- Data Structure
- OOP
- C++
- java ee
- Data Mining
- Human Computer Interaction
- System Analysis And Design
- java se
- mysql
