My Skills

I have been exposed to many techniques over my studies in college and I learned from most things and things I was good at, , another medium and the other did not understand but at least learned what it is and what it is role

from this techniques **programming languages**

like(c,c++,c#,java,python,julia,PHP,Assimply,JavaScript),**Web Design**

Languages like (Html,CSS),**Database Languages** like

(Jquery,sql,sqlite),**personal Skills** (leader) of most of college projects

Html/Css

90%

Php/MySQL

88%

Wordpress

80%

javascript/jquery

70%

python

70%

My Education

I am graduated from Faculty of computers and information at Cairo University

Department of **Computer Science**

Cairo University

faculty of computers and information / Sep 2015 / Sep 2019

2.2 GPA

The Faculty of computers and information attempts to develop the system of study , reevaluating the curricula , applying the latest educational systems that provide more participation and choice for students to study the subjects according to their abilities and desires.

Work Experience

I did not work in the real world before and the gained experience gained from projects and work in college and my colleagues

there some projects i enjoyed working on and give me good experience like....

Graduation Project

last year in college / June 2019

1 Year

It is a medical diagnostic system By taking the symptoms felt by the patient and predicting the disease and the appropriate diet and dangerous degree (**Machin Learning,Data Analysis,Html,CSS,PHP,wordPress,Laravel**)

Face Recognition

last year Des 2018

4 Month

It takes a collection of your photos and recognizes them and then recognizes any picture of you(**Machin Learning,Deep Learning**).
