PERSONAL PROJECTS

Association rules (11/2018 – 11/2018)

- Study inga huge DataBase about 10000 record and finding the Strong Association Rules Using Apriori Algorithm with JAVA
- <https://github.com/MahmoudAlzoghbi/-Apriori-Algorithm>

Data Clustering (12/2018 – 12/2018)

- Studying a huge DataBase Records and Constructing the Clustering Algorithm Using (K-means) with JAVA
- <https://github.com/MahmoudAlzoghbi/Data-Mining-Clustering>

Data Classifications (12/2018 – 12/2108)

- Studying a huge DataBase Records and then divide data into Training set and Testing set and then Applying Bayesian Classifier and K-nearest Algorithm to construct the Classification using JAVA
- <https://github.com/MahmoudAlzoghbi/Data-Mining-Bayesian-Classifier>

RESTFUL API (03/2018 – 03/2018)

- Simple Java Project using A Fixer API And show to user the exchange of the Currencies
- https://github.com/MahmoudAlzoghbi/SimpleRESTFUL_API

Selenium Testing (05/2018 – 05/2018)

- about testing an web site forms and labels ...
- https://github.com/MahmoudAlzoghbi/Test_Selenium

Android-Retrofit (12/2018 – 12/2018)

- Android Accessing API using Retrofit
- <https://github.com/MahmoudAlzoghbi/Android-Retrofit>

Graduation Project (09/2018 – Present)

- Android App about connecting worker with client, that clint need to finish work in his flat or change the Scenery of his flat he can register in this app and choice the category he need and we offer worker related to his choice and he can choose one of this to make this job
- <https://github.com/MahmoudAlzoghbi/Graduation-Project>

Room-DB (02/2019 – 01/2019)

- simple room Database insertion of user of show it or retrieve it
- <https://github.com/MahmoudAlzoghbi/RoomDB-Insert-User-and-Show>

EDUCATION

Computer Science

Faculty of Computers and information Cairo University

09/2105 – Present

Major : information Systems (IS)

Courses

- Software Engineering
- Data Structure
- OOP
- C++
- java ee
- Data Mining
- Human Computer Interaction
- System Analysis And Design
- java se
- mysql
