FACULTY OF COMPUTERS AND INFORMATION, CAIRO UNIVERSITY
. Current GPA: 2.52

MAY 2016
HIGH SCHOOL, TABARY AL HAGAZ
. Arabic School
. With degree 93.05%

SKILLS

- Advanced Java
- Android
- Firebase
- C
- APIs

- Advanced C++
- Problem Solving, data structures
- Debugging
- Design patterns

PROJECTS

. PARALLEL FOR ELECTIONS USING MPI IN C

write to mpi file and read from all processor and calculate who 's win in round 1 and calculate round 2 if need decided who win in election process
but this is very fast because it occure in parallel.

. I_FINDER

This a "Lost and found" platform. A user can either search for a lost item or post one according to categories. If a user didn't find the category he can make one, and post a lost item

. WHERE TO GO APP

Learn to use REST APIs, weather, news, and working with google maps, you choose a place and you can see its hot news, weather on the map, and save it.
